Taxes! Taxes! Taxes! HAVING been (from causes beyond my control) delayed in preparing for the collection of the taxes of 1859. It is absolutely necessary for me to require prompt payers of the same, in order to meet my liabilities to the Nate, be county and the schools. I expect, therefore, that all tax payers will see the netessity of paying their taxes to once. [sept32-1m] SAM'L IRWIN, S. O. O.

Ten Cente a Week. - The Intelligencer is formished to subscribers in any part of the city or neighborhood at ten cents a week.

A Triangular Row. - Wm. Klinkler is a clever fellow and keeps a hotel" on 'Market Square. Wm. Yost keeps a lager beer saloon in the same vicinity. Both are of the Teutonic persuasion. Klinkler went into Yost's vesterday afternoon and said he had had a dream in which he thought he had worsted Yost in a frot. Yost suggested that perhaps Mr. Klinkbe would like to realize that dream. Mr. Klinkler thought he could easily do so. Mr. Yost sid Klinkler was a liar, whereupon Klinkler reached over the counter and slapped Yost on the cheek hard enough to scar his face and draw the claret. Yost, burning up with passion. wired a club and drew it back with the intention of putting out Klinkler's chunk, but tabing a second thought, (not a sober one) threw down the saw-log and went into Klinkler with his natural mauls of destruction. Klinkler was willing and at it they went. Here Mrs. Yost rushed in to the support of her liege lord, and making her presence manifest in the rear of Klinkler's person, that usually quiet individual turned about and pinched her. At last the fight ended much to the regret of several persons who stood looking on, and soon afterwards the two male beligerents were arrested by offier Scroggins and taken to Ald. Wright's office. Some dozen or more Germans were summoned as witnesses in the case, and after hearing and sifting the testimony the Ald, fined both parties five dollars and costs. Mr. Klinkler then wanted to swear out a war

met against Yost for going about with a pistol and threatening to shoot him, but we did not bear how this last affair terminated.

Wednesday's Market .- There was the simmest attendance at market yesterday morn ing that we have seen for many a day, and every thing, as the market men say, was awful dull The days of odouriferous sour krout, that delightful edible which unappreciative Greeley describes as a cross between rotten cabbage and pickled manure, have come again, and it was cabbage in wagons, cabbage in stalls, cabbage in baskets and cabbage on the sidewalk. Everywhere cabbage selling at 2 and 3 cts, or al most whatever the buyer would give. Tomas oes but few, some slightly red, most of them green, and all of them shabby-as at ancient ptertainments, the best came first and since men have well eaten, that which is worse-sold it 8 cts. per peck for green and 10 for the balince. Notwithstanding the brightness of demand the old prices prevailed generally. Butter 18 and 20 cts.; apples from 10 to 20 cts. per peck; eggs 12 cts. per doz.: flour and meats un

"Nigger in a Wood Pile."-Some time during Tuesday night, a negro man imbibed a little too much whisky, and being sensible of his condition, and afraid to go home to his employer, went and crawled into a wood shed in the vicinity of our office, where he might re pose. His deep potations, after a "fiftful fe ver," caused him to sleep well, and he was still occupying his rough bed when a countryman ame yesterday morning with a load of cord R wood, and proceeded to pitch the sticks into he shed. The boozy black's head was used for short time as a sort of slide, without disturbing him, but at last one of the heavier pieces struck him on the leg, when he arose from out he wood like a sable, wingless Phoenix, and nme very near taking the roof off the shed. Ipon coming to consciousness he found his shins barked, his head pecled and swollen, and he didn't feel well himself.

The Weekly Intellineer will be issued to lay with an unusual amount of interesting news and choice miscellaneous matter. It will contain a full and satisfactory account of the originprogress and suppression of the daring insurection at Harper's Ferry, the off-hand lecture of the venerable Peter Cartwright, and all the nost important local events of the day. Call and get a copy. Only five cents a piece, or one tollar a year, in advance.

Arrested,-The man who committed a ape upon Miss Carroll, on Monday last, near Sand Hill, Marshal county, has been arrested at Burnsville, Pa., and duly committed by Justice Lee. Miss Carroll, who is not so badly injured is was at first supposed, appeared as a witness and identified the villanous rascal.

Dobstruction. - Since the advent of the cold weather we have noticed that the sides walks are frequently obstructed with loads of coal, which are thrown from the carts and remain as stumbling places for pedestrians during be night. All who thus obstruct the sidewalks are liable to a fine.

Real Estate at Auction .-- We call attention to the "Sale of real estate at auction," by Mr. Caldwell, which takes place on the ground

o-day. Tried to Escape. On the last trip down the steamer R. B. Hamilton, a couple of slaves the were going south made an effort to escape t Ironton. They got on free soil, but their

eners outfooted them, and they were soon on he boat again and securely ironed. Sent Up .- Lawrence Helpin was found dunk and violating that famous second section, Jesterday. Officer Scroggins gathered him up as wheeled him into Ald. Wright's office, whence he was committed to jall.

Nude. - Theodore Kryder was found runk and scampering about the Island night before last, almost in a state of nudity. He was brought over to Ald, Wright's by officer Richardson and sent to jail.

BUSINESS NOTICES.

Furmers, professional men, business men, all sorts of men, women and children, are interested in knowing that, as a family medicine, Dr. Todd's Anti-Bilious or Liver Pills, are superior to any in use. For diseased liver and stomach they are indispensable! Try them .-For sale by dealers. T. H. Logan & Co., and Logan, List & Co., General Agents.

It is a common observation that there are more sufferers It is a common observation that there are more superers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tenic and invigorater as Dr. J. Hostetter has given to the world, in his Ocusparato "Bryrass." The weak and nervous denizen of the counting house, the exhausted toilto the world, in his GRIEBBATER "BITTERS." The weak and mervious denizes of the counting house, the exhausted toller upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is so magical in it; influence upon a frame which is merely debilitated, is equally powerful in assisting materials to expel the most terrible ferms of disease. Who would not give it a trial? ould not give it a trial?

FURTHER FROM HARPER'S FERRY

HARPER'S FERRY, Oct. 19 .- The prisoners have been committed to jail at Charlestown to awaif the action of the Grand Jury, when they will be indicted and tried in a few days

The arrangement about the jurisdiction, has been settled in this way; the local authorities are to try the prisoners for murder, and in the mean while the U. S. authorities will proceed on the charge of treason. Gov. Wise said to Mr. Ould, the District Attorney, that he had no objection to the General Government proceeding against the prisoners, that is what will be left of them, by the time the Virginia authorities are

Brown is better to-day, and has made a further statement of his operations. He says that he rented the farm of Dr. Kennedy six months ago, and the rent is paid until next March. He never had over 22 men at the farm at any one time that belonged to the organization, but that he had good reason to expect reinforcements from Maryland, Kentucky, North and South Carolina, and the Canadas. He had provided arms sufficient for 1500 men, including 200 revolvers, 200 Sharp's rifles and a thousand spears, all of which were left at the farm. He also had an abundance of powder and fixed ammunition. All the arms were from time to time brought from Connecticut and other eastern points Chambersburg, Penna., and were directed to J. name. They were packed in double boxes so

He says that he made one mistake in either not detaining the train on Sunday night or else permitting it to go on unmolested. This mistake, he seemed to infer, exposed the doings too soon and prevented his reinforcements from coming. The names of all of his party at the Ferry on Sunday night, except three white men, whom he admits that he sent away on an errand, are as follows, with their proper titles under the provisional government: Gen. John Brown, Commander in Chief, wounded but will recover; Capt. Oliver Brown, dead; Capt. ac; an im-extra II. Ohio, raised in Virginia, dead; Capt. Aaron C. Stephens, of Connecticut, wounded badly, has three balls in his body and cannot possibly gover; Lieut. Edwin Coppic, of Iowa, unhurt; Lieut. Albert Hazlett, of Penna., dead; Lieut. Conn., escaped. Privates-Stewart Taylor, of Canada, dead; Chas. P. Tidd, of Maine, dead; Wm. Thompson, of N. Y., dead; Dolph Thompson, of N. Y., dead.

The above, with the three whites previously sent off, make in all seventeen whites. Negroes - Dangerfield Worley of Ohio, raised in Va., dead. Emperor, of N. Y., raised in S. C., not wounded, but a prisoner. The latter was elected a member of Congress of the Provisional Government, some time since. Lewis Leary, of Ohio, raised in Va., dead. Copeland, of Ohio, raised in Va., not wounded, but is a pris-

oner at Charlestown.

Gen. Brown has nine wounds, but none fatal. A bushel of letters were discovered from all parts of the country. One from Gerrit Smith, informs Brown of money being deposited in a bank in N. Y. to the credit of J. Smith & Sons, and appears to be one of many, informing him

The following is the constitution found among the papers at Brown's farm:

THE PROPLE OF THE U. S. WHEREAS, Slavery throughout its entire exstence in the U.S. is none other than the most barbarous, unprovoked and unjustifiable war of one portion of its citizens upon another portion, the only conditions of which are perpetual imprisonment and hopeless servitude or absolute Trustee's Sale.

Honse, and tenders his professional services to the sick and affilied of Wheeling and violity, for a careful diagnosis, and treatment of all diseases of a Ohronic of Nervous charcter. He brings to his aid a new application of the most powerful of all agents, ELEOFRIGITY. Dr. J. would here state that he is not introducing a system based upol uncertainty or doubt, but one at all times reliable and has been tested by thousands. His especial claims are as follows: First, in determining the condition of the body are an organ by an electric diagnosis, which points out the character and locality of the disease. Second, The specific action of electricity on the body. Third, The distinctive influence of the two polarities, the inward and the outward; and instity, The scientific application of the two notarities to diseased states of the body, treating each state according to its requirements, and the fixed laws which govern the action of electricity. When these principles are understood and strictly carried out, it is no matter of d inbt or guesswork, and the ability to c ire no mystery. and the ability to care no mystery. following diseases are especially and permanently
